

**ENABLING CRITICAL DECISIONS**

# **LIMITED UNCERTAINTY**

**DEDICATED TO BRINGING LIFE-SAVING MEDICAL TECHNOLOGIES TO SURGEONS AND PATIENTS AROUND THE WORLD**

**DATE**

**Presenter Name**

## INTEGRA — WHO WE ARE?

Every day, we bring hope to millions of patients through our broad portfolio of innovative medical technologies for neurosurgery, surgical reconstruction and wound care

# The business context

## Key success factors

Ensure that the right products are available at the right time

Deliver newer product features to improve patient care

Ensure performance and precision of critical equipment

Delays in ingesting and processing of the critical data relating to usage patterns, stock levels, quality issues was impacting the ability to help patients and surgeons globally

# Strategic transformation

To overcome these challenges and drive growth, we embarked on a transformation initiative to overhaul over 'data to insights' value chain.

Wipro was selected as a strategic partner based on their

Credentials in Data, analytics & AI

Strategic focus on cloud transformation with FullStride Cloud services

Strong architecture & development capabilities on Databricks

## Gartner

Wipro rated as a **'Leader'** in Gartner Magic Quadrant for Data and Analytics Service Providers

Feb 2022

## FORRESTER

Wipro rated as a **'Leader'** in The Forrester Wave™: Data Management Service Providers

Dec 2021

# The Solution – Databricks Unified platform

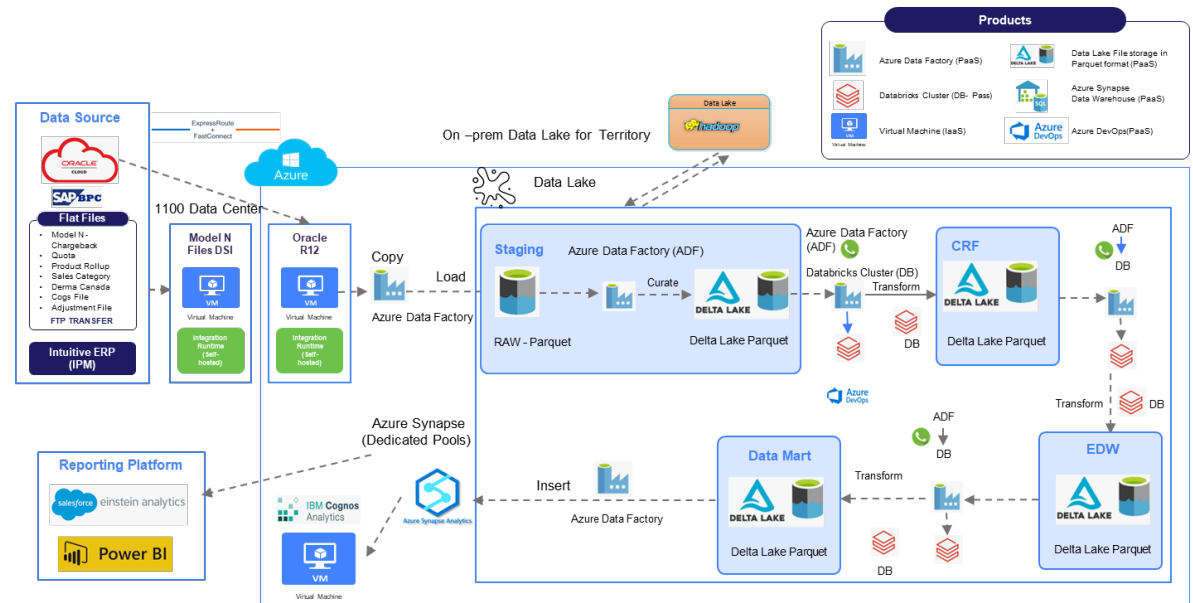

The program involved building next-gen data pipelines, migrating data from legacy DW to Azure Databricks, implementing DevOps, building reusable components etc.

**500**  
Data  
objects

**700**  
data  
pipelines

The Databricks platform is enabling a unified platform for EDW, AI /ML, IOT and is significantly increasing our ability to deliver business & technology value

# Business & Technical impact

## Anticipated business benefits include:

Developing new products, services and driving revenue growth, profitability

Improving demand & supply planning

Enhancing customer experience

## Technology benefits include:

Decreased data availability lag by 52%

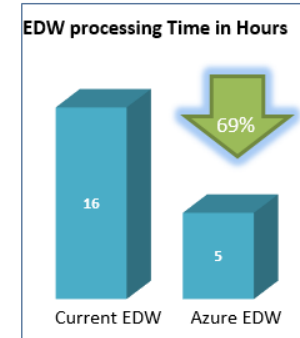

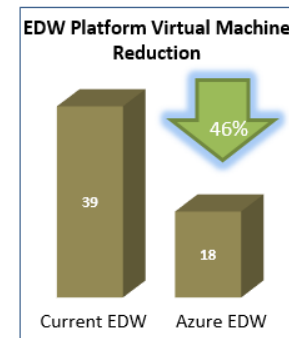

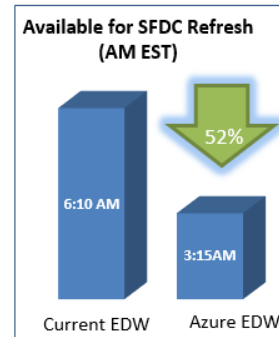

Reduced operating costs by more than 45%

Reducing the warehouse loading time by 60%, from 8 hours to 1 hour and 45 minutes.

Reducing software costs by 50%

THANK YOU
