HACKATHON
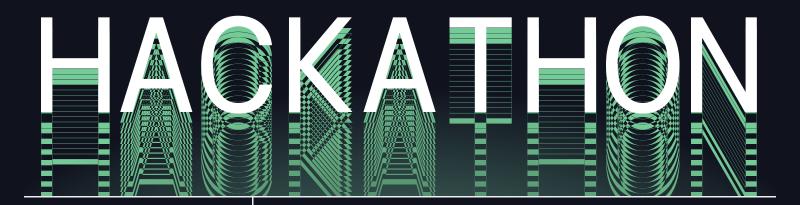

WHEN
Monday, June 26
9:00 AM – 5:00 PM

WHERE
Grand Ballroom
InterContinental Hotel
San Francisco

Are you attending Data + AI Summit in person this year? Join forces with fellow data scientists, engineers and analysts for the Data + AI Summit Hackathon. Create a unique and novel proof of concept or technique to showcase open LLM models such as Dolly or Spark Connect — for your chance to win cash prizes from a pool of $20,000!

Three finalist teams will be selected and recognized during the Data + AI Summit 2023 Keynote, and each will have the opportunity to win a cash prize to be split among their team members. Databricks technical experts will join in as mentors, so come hang out, and show us what you've got!

Winners will be announced at our Meetup celebration from 6:00 to 8:00 PM on Monday after the hackathon.

Food, drinks (and caffeine!) will be available throughout the day

(?) **WHAT IF I'M A VIRTUAL ATTENDEE?**

For Data + AI Summit attendees joining our Virtual Experience, we've got you covered! Check out the Virtual Hackathon running from May 18 to June 15.

Please note that the Hackathon event in San Francisco has a strict capacity of 100 participants. By adding this session to your schedule, you are reserving your spot and agreeing to Databricks' terms and conditions.
